Quality programs require time, commitment, and funding. We are a 501(c)(3) tax exempt non-profit organization. Our work would not be possible without the financial contributions of those in our community.

Follow the directions on the Donate page to customize your donation after logging into Paypal. Volunteer With Us

Please help us in our work by volunteering your time. The most essential component of truly helping our community grow is a strong base of neighbors. While of course becoming a member, making a donation to our organization, or designing an internship with us each funds our work, the most important asset you can donate is your time and energy.

Alongside our community's volunteer opportunities listed on our website, please volunteer at our office, at an event, or on a project on your own time. Projects range from helping to plan public art projects (mosaics, murals, childrens' activities), filing, tabling at conferences and meetings, cultivating a wayside project, or designing a plan all your own. You can choose how long you are available, your project, and what interests you. We are happy to explore working with you.
